Rick Oakes

ASHI Certified Inspector

Rick Oakes has been inspecting homes and buildings since 1988. He has worked more than 20 years in residential and commercial construction, along with teaching industrial arts, working as a plumber for the State of Ohio, and as a superintendent for a large local track (subdivision) builder.

Rick's inspections are based on visual observation. His working knowledge of building construction enables him to clearly communicate to you—the Pinpoint customer—about the amenities and maintenance requirements of your property. He can show you those tell-tale signs of foreseeable and necessary repairs.

All inspections are made according to the American Society of Home Inspectors (ASHI) Standards of Practice and Code of Ethics.
